SIMSIMA GAFOOR

Flutter Developer | Flutter & Dart | Android & iOS | Firebase | REST APIs

Dubai, UAE • (+971) **581-542-529** • simsimagafoor1@gmail.com • LinkedIn • GitHub

PROFESSIONAL SUMMARY

Flutter Developer with 4+ years of professional experience in cross-platform mobile application development using Flutter and Dart. Skilled in Clean Architecture, state management (BLoC, Provider), REST API integration, Firebase, responsive UI development, debugging, and app deployment. Experienced in building and maintaining Android and iOS applications, developing reusable components, and optimizing application performance. Also experienced in enterprise software integration and production support. Developed an AI-powered Feedback Analyzer using Flutter, Python, FastAPI, PostgreSQL, and Llama 3.

TECHNICAL SKILLS

- **Mobile Development:** Flutter, Dart, Android, iOS, Cross-Platform App Development, Responsive UI
- **Architecture & State Management:** BLoC, Provider, Riverpod, Clean Architecture, MVVM, Repository Pattern, SOLID Principles, Dependency Injection
- **Dart Programming:** Null Safety, Asynchronous Programming, Futures, Streams, Object-Oriented Programming (OOP)
- **API Integration:** REST APIs, JSON, Dio, HTTP, JWT Authentication, Error Handling
- **Firebase Services:** Firebase Authentication, Cloud Firestore, Firebase Cloud Messaging (FCM), Firebase Crashlytics, Remote Config
- **UI/UX Development:** Custom Widgets, Reusable Components, Material Design, Figma
- **Testing & Performance:** Unit Testing, Widget Testing, Debugging, Performance Optimization
- **App Deployment & Release:** Google Play Store, Apple App Store, Xcode, App Signing, App Release Management
- **Version Control & Tools:** Git, GitHub, Postman, Android Studio, VS Code
- **AI & LLM Integration:** Claude API, Ollama, Llama 3, Prompt Engineering, Sentiment Analysis, Feedback Classification, AI-Generated Recommendations
- **Backend & Database:** Python, FastAPI, PostgreSQL, SQL
- **Development Practices:** Agile/Scrum, Code Reviews, Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Flutter Developer | Bosporus Real Estate – Akarat App | Dubai, UAE May 2025 - present

Google Play Store | Apple App Store

- Owned end-to-end development of a production Flutter application using Clean Architecture, BLoC, Repository Pattern, Dependency Injection, reusable components, and modular design.
- Developed Android, iOS and Web features including search, filtering, favorites, pagination, caching, API synchronization, and responsive UI.
- Integrated REST APIs, including DLD integrations Firebase Authentication, Firestore, FCM, Crashlytics, and Remote Config, collaborating with backend and stakeholders on API contracts and requirements.
- Managed code reviews, performance optimization, production fixes, App Store/Google Play releases, and post-release monitoring.

Flutter Developer | Enercap Power Industries LLC | Dubai, UAE Oct 2024 - Jan 2025

GitHub

- Developed cross-platform Flutter applications for Android and Windows using Clean Architecture and reusable components.
- Implemented real-time data monitoring and visualization using Modbus RTU and RS-485 communication.
- Collaborated with backend, embedded and R&D teams to resolve integration issues, production defects, and technical requirements.
- Applied Git, code reviews, debugging, performance optimization, and structured engineering practices.

Software Engineer | UST | Trivandrum, India Feb 2022 - Apr 2024

- Developed internal Flutter applications to simplify task management and improve team workflows.
- Built application screens and features to support internal task tracking and team coordination.
- Contributed to application development alongside enterprise software integration and production support responsibilities.
- Collaborated with internal teams to understand requirements, troubleshoot issues, and deliver practical software solutions.

Flutter Developer | Goyalo Safaris | Kochi, India Oct 2020 - Oct 2021

- Developed cross-platform eCommerce applications using Flutter and REST APIs.
- Integrated Firebase services, payment gateways, and speech recognition.
- Collaborated with backend teams to deliver scalable mobile applications.
- Managed source code using Git and Jira.

PROJECTS

AI Feedback Analyzer | Flutter, Dart, Python, FastAPI, PostgreSQL, SQLAlchemy

- Developed a full-stack AI-powered feedback analysis application using Flutter, FastAPI, and PostgreSQL.
- Implemented sentiment analysis, feedback classification, and interactive analytics dashboards.
- Integrated Ollama (Llama 3) for AI-generated insights, summaries, and actionable recommendations.
- Implemented CSV uploads, JWT authentication, REST API integration, and automated feedback processing.

EnWALL App

- Developed Flutter application for industrial battery and inverter monitoring.
- Integrated Modbus RTU communication and real-time data visualization.
- Built reusable architecture for scalable industrial applications.

Movie Search App

- Developed Flutter application using Riverpod, Freezed, Dio, and OMDb REST API.
- Implemented modular architecture with responsive UI and optimized performance.

CERTIFICATES

Flutter & Dart – The Complete Guide – Udemy | 2026

- Flutter, Dart, BLoC, Provider, Firebase, REST APIs, Clean Architecture, Mobile Deployment

Claude 101, Claude Code in Action & Claude with Anthropic API – Anthropic Academy | 2026

- Claude Code, AI-Assisted Development, Claude API, Tool Calling, MCP, AI Engineering Workflows

Firebase Learning Path – Google | 2026

- Firebase Authentication, Firestore, FCM, Remote Config, Real-Time Data Synchronization.

EDUCATION

Bachelor of Technology (B.Tech) – Information Technology
Kerala Technological University

LANGUAGES

- English, Arabic, Hindi, Malayalam
